AT A GLANCE

Trust lead: the journey

1 Sign in → 2 Schools and licences → 3 Screening and participation → 4 Spending by school

Who they are

The person in a multi-academy trust (a group of schools) who oversees Motor Movers across its schools.

What they do

- Sees each school’s licence, renewal date and licensed stages.
- Compares screening and daily participation across schools.
- Sees what each school has paid and still owes.

What they can see

Summaries for the schools in their trust.

What stays out of view

Individual children, unless a school chooses to share them.

> Who sees what is enforced by the platform itself, not only by hiding things on screen. The same rules apply on the website and in the parent app.

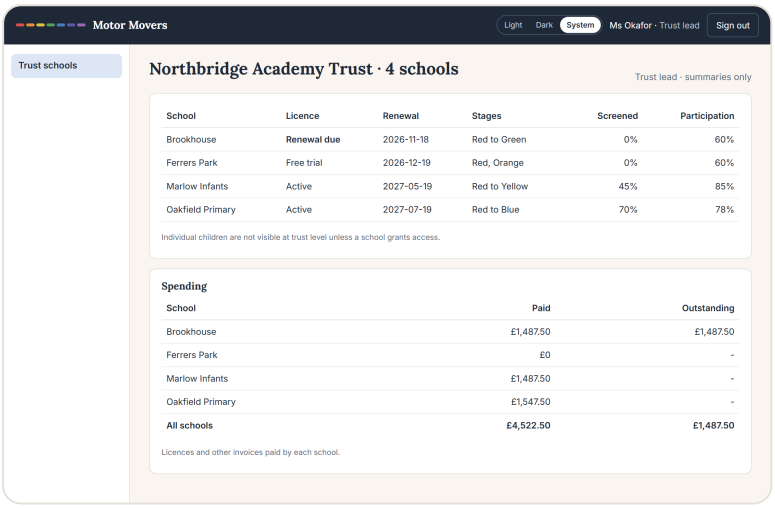

STEP BY STEP

How it works

1 One page for the whole trust

The trust page lists every school with its licence status (active, renewal due, free trial), renewal date, licensed stages, the share of children screened and daily participation. Underneath, a spending table shows what each school has paid and what is outstanding, with a trust total.

Why it matters: Trust leaders can compare schools, plan renewals and budget, without seeing any child's personal record.

Northbridge Academy Trust: four schools, Brookhouse's renewal due, £4,522.50 paid across the trust.

2 Privacy by design

Trust leads see totals and percentages only. Individual children stay invisible at trust level unless a school switches on sharing in its own privacy settings. This rule is enforced by the platform itself, not just hidden on screen.

Why it matters: Schools can join a trust-wide rollout with confidence that their children's records stay with them.
